

## Redneck Lullaby

Ruby Fields

Show my girl my mother my world  
I know you're not proud of what I've become  
Getting drunk on weeknights starting fistfights  
Where went that girl that had good fair dinkum fun?

And I'll be honest I'm afraid cause now it's only a matter of days  
Before I need to grow the fuck up and travel the world and get a job and I'm stuck

Show my girl my mother my world  
There's nothing you could've done different or better  
House prices are rising it's not surprising I'm moving away  
But what would you know I'm stuck on another three day bender  
According to you and dad

And I'll be honest I'm afraid cause now it's only a matter of days  
Before it all comes down  
So mum please sing me a lullaby because I'm finding it hard to sleep at night

Grab a beer and get on with it

This is the time for exploration so I'm not offering an excuse  
But I'm sorry the last person I wanted to disappoint was you  
And this is a theme song for us all some could say a redneck lullaby  
If you're young and terrified and just trying to have a good time
