

Coast Side

Omar Rudberg

Coast side, side, side, side, side

Coast side, we live for the night
We left the ghost town to get on the ride
We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side

Helpless
Life's a maze and we've been looking for something to do
Oh, I just wanna waste my time with you, yeah, you
Just tell me you want to (Just tell me you want to)

And if you like it
We can run away and find a place to hide now
If you don't mind

Coast side, we live for the night
We left the ghost town to get on the ride
We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side
Coast side, we live for the night
We left the ghost town to get on the ride
We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side

Uh, la costa está en el lado de ti, yo en el passenger seat, yeah
Moviendo como Bonnie y Clyde, toda la noche en un coche fly
Con la luna que alumbra el camino
Yeah, oh, oh, oh

And if you like it (Yeah)
We can run away and find a place to hide now
If you don't mind

Coast side, we live for the night
We left the ghost town to get on the ride
We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side
Coast side, we live for the night
We left the ghost town to get on the ride
We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side

On the coast
The night
On the coast

We'll tell you secrets 'bout our youth
But nothing too close to the truth
Out on the coast side
Hm, hm
