

# Red Light

Omar Rudberg

Didn't mean to fall in love  
But you were everything I'm not  
You were everything I wanted  
We only had a couple days  
But I saw heaven in your face  
I wanna call you, and see you

Slowly, I see the red light  
And I'm caught up  
By the street  
Slowly, we get on all night  
Like we're dancing  
You and me

Feeling the fever from our love  
I had to come back for the touch  
Now I can't call you  
I know you're busy, yeah  
And in the bedroom where I lie  
Seems like it can't be the same  
Though you were never here with me  
I wish I could be locked in your sunlight  
I keep coming back to the red light  
Force I can't halt like a riptide  
Can't quit

So take me slowly  
To the red light  
Get me caught up  
By this dream

Slowly, I see the red light  
'Cause I'm caught up  
By this dream  
And I said  
Slowly, but like a riptide  
We keep dancing  
You and me

You and me, yeah  
You and me, yeah  
You and me, yeah  
You and me, yeah  
You and me, yeah  
You and me, yeah  
You and me, yeah  
You and me, yeah
