

Calling

Rudimental

Why, why, why, yeah

Let your guard down
'Cause I know I know you're into me
Let your guard down
Don't be afraid of your intimacy

Why won't you talk to me, talk to me?
I know your body is calling me
I need you to walk with me, walk with me
There'll be no talking, just come with me

You will be calling
You will be calling my name
You will be calling
You will be calling my name
Calling my name when I'm done
Calling my name when I'm done with you
Oh yeah I got you calling
Oh yeah I got you calling

Let your guard down
'Cause I know I know you're into me
Let your guard down
Don't be afraid of your intimacy

Why won't you talk to me, talk to me?
I know your body is calling me
I need you to walk with me, walk with me
There'll be no talking, just come with me

You will be calling
You will be calling my name
You will be calling
You will be calling my name
Calling my name when I'm done
Calling my name when I'm done with you
Oh yeah I got you calling
Oh yeah I got you calling

Calling my name when I'm done
Calling my name when I'm done with you
Calling my name when I'm done
Calling my name when I'm done with you
