

# Come Over

Rudimental

You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah  
You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah

You living your life  
Having all a good time  
Better than when you were mine  
I gotta be honest  
I got regrets  
Never gave you respect  
Should've shown you that I cared  
This time I'll be honest

I had to mess up so I could understand  
You were the best thing that I ever, ever had  
And I'd do anything for us to go back, no  
If I could do it over, I would hold you closer  
Fix the thing that left us broken  
'Cause baby now I'm older, and my love's much bolder  
I will never lose you again

You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah  
You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah

I miss what we had  
And I want it all back  
Can you give me one more chance?  
I'm different, I promise  
We'll make it work, yeah  
I'll give you what you deserve  
I know I will never be turned  
I'll stick to my promise

I had to mess up so I could understand  
You were the best thing that I ever, ever had  
And I'd do anything for us to go back, no  
If I could do it over, I would hold you closer  
Fix the thing that left us broken  
'Cause baby now I'm older, and my love's much bolder  
I will never lose you again

You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah  
You should just come over  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah  
(Huh, yo, T Wayne from the nine)

My love's like roulette, roulette

Once you left, I don't know who's next  
Living my life, two-step, two-step  
Two girl in my car, dark skin, brunette  
M-way, Rolls Royce, double R  
Switched up from corned beef to caviar  
Make ups I don't like the war  
Mi Amor, I ain't felt like this before  
Me first then my gwolla  
She said swallow your pride and let me holla  
Came back and I shut down the summer  
When I cop it, I bust down, I got her  
She wanna do-over, sex in the Range Rover  
But baby, it's over, yeah, yeah, yeah, yeah

You should just come over (yeah)  
And I can just show ya  
Let me do-over, yeah, yeah, yeah, yeah (let me do-over)  
You should just come over (you should come over)  
And I can just show ya (I can just show ya)  
Let me do-over, yeah, yeah, yeah, yeah  
You should just come over (you should come over)  
And I can just show ya (I can just show ya)  
Let me do-over, yeah, yeah, yeah, yeah (no)  
You should just come over (yeah)  
And I can just show ya (show ya)  
Let me do-over, yeah, yeah, yeah, yeah (over, no)  
You should just come over, oh

Alright (no)  
Yeah, gluten free and vegan for Holly and D, please
