

Do You Remember

Rudimental

I wish I told you it's the coldest where I'm laying
We're just going through the motions yet again
No way around it if your love is feeling vacant
But I keep holding onto moments until it ends

Can't stay awake, I can't stay awake
But I can't keep waiting
When I'm not on your time am I still on your mind?
'Cause I can't keep praying
Tell me darling, do you remember
When it was just all about us?
When our love was just a promise?
When you were all I was involved in?
Do you remember
When enough was still enough?
Before our luck ran out of luck
I had you once, I had you once

Do you remember all about us?
Do you remember when you were all I was involved in?
Do you remember all about us?
Do you remember when you were all I was involved in?

Every night I try to fight the same feeling
There's a million reasons I'm not letting go
I can't build everything with the cards you keep dealing
But I would kill for just a chance not to fold

Can't stay awake, I can't stay awake
But I can't keep waiting (No, I can't keep waiting)
When I'm not on your time am I still on your mind?
'Cause I can't keep praying
Tell me darling, do you remember (Ooh)
When it was just all about us?
When our love was just a promise?
When you were all I was involved in? (You were all I was involved in?)
Do you remember
When enough was still enough?
Before our luck ran out of luck
I had you once, I had you once

Do you remember all about us?
Do you remember when you were all I was involved in?
Do you remember all about us?
Do you remember when you were all I was involved in?

Do you remember all about us?
Do you remember when you were all I was involved in?
Do you remember all about us?
Do you remember when you were all I was involved in?

Do you remember?
