

# Keep Your Head Up

Rudimental

Ahh-ahh  
Ahh-ahh  
Ayy-ayy

You've been searchin' for some love lately  
The results have got you down  
Look how far you've really come, baby  
There is more to what you've found  
Heard you askin' for the strength to survive  
Feel like life is goin' wrong  
But a-what you have is a power in the sky  
An opportunity to be strong

So keep your head up to the sun  
And you'll land on the one  
Keep your head up to the sun  
And you'll land on the one  
On the one (On the one), on the one (On the one)  
And you'll land (And you'll land) on the one (On the one)  
On the one (On the one), on the one (On the one)  
And you'll land on the one

The grass is greener where you're standin' now (Standin' now)  
I know it never looks that way  
But the night is always darkest (Darkest just before the day)  
Just before you see the day  
I hear you wishin' for a better time  
'Cause I've been here way too long (Way too long)  
But what you have is an ideal in the sky  
Tryna find a way to go, but, oh

So keep your head up to the sun (To the sun)  
And you'll land (And you'll land) on the one (On the one)  
Keep your head up (Keep your head up) to the sun (To the sun)

On the one (On the one), on the one (On the one)

On the one, on the one (On the one)  
And you'll land on the one (On the one)

Oh, oh, oh, oh  
Oh, oh, oh, oh (Ooh, yeah)
