

Mean That Much

Rudimental

(You don't wanna...)

Cross my heart, hope to die
With you's the only place I feel alive
Feel the space in my mind
I feel whole again by your side

I can't lose this
I'm so deep in mind, refuse this
You make all my feelings confusing
That's me up inside

You don't wanna mean that much to me
Oh-oh, you don't wanna
You only wanna love me nine 'til three
Oh-oh
You don't wanna mean that much to me
Oh-oh, you don't wanna
Still wanna be your everything
Oh-oh

I just say the bad things always taste a little sweeter
(You don't wanna, you don't wanna mean that much to me)
And I tell myself that I'm not good but boy, I need ya
I just say the bad things always taste a little sweeter
(Oh-oh, you don't wanna)
And I tell myself that I'm not good but boy, I need ya

On the line, hopelessly
Gave you all my time, it weren't for me
Spinning lies like poetry
You know what I want is to believe

I can't lose this
I'm so deep in mind, refuse this
You make all my feelings confusing
That's me up inside

You don't wanna mean that much to me
Oh-oh, you don't wanna
You only wanna love me nine 'til three
Oh-oh
You don't wanna mean that much to me
Oh-oh, you don't wanna
Still wanna be your everything
Oh-oh
You don't wanna mean that much to me
Oh-oh, you don't wanna
You only wanna love me nine 'til three
Oh-oh
You don't wanna mean that much to me
Oh-oh, you don't wanna
Still wanna be your everything
Oh-oh

You don't want to mean that much
Like I do, baby

You don't want to feel that much
Like I do, baby
You don't want to mean that much
Like I do, baby
You don't want to feel that much
Like I do, baby

You don't wanna mean that much to me
You don't want to mean that much
You only wanna love me nine 'til three
Like I do, baby
You don't wanna mean that much to me
You don't want to feel that much
You only wanna love me nine 'til three
Like I do, baby
You don't wanna mean that much to me
You don't want to mean that much
You only wanna love me nine 'til three
Like I do, baby
You don't wanna mean that much to me
You don't want to feel that much
Still wanna be your everything
Like I do, baby
