

Ups and downs
Only staying out to forget about
How life comes 'round

It's been a really long time
More millis off the mic
Couple years, I'ma get mine
Up to the time
I'm the realest of the guys
Turned rap star from the grime
It's been a long, long time
Still a long way from my prime
Still a long way from my prime
Long, long time
Still a long way from my prime
Still a long way from my

Please don't get me vexed
I just wanna flex
Smoking on my meds
This ain't checkers, this ain't chess
No GCSE's, but this one is a test
Turn a rave into a mess
Prick, say it with your chest
I'm sick up in my head, melanin's def'
You fi' walk in my shoes
You can't step in all these craps
Rudimental, I'm the desk (Skepsis)
Got them overstressed
Hit him with the weak hand
Hit him with the left

Ups and downs
Only staying out to forget about how
Life comes 'round
It's 5 AM and I'm so in love with this sound
And it's so loud
Yeah, I had enough of it
Fire me up, you can fire
Let's stay out
Let's forget about

Neck full of rose gold
Burn up it' n roll
Always mi dress clean
Cyaan seh dem inna di street dem when mi got di password
Dem know seh di killy deh sharper dan sword
Woi, high grade a roll up and high grade a light
Gyal a ride di ting like a bike
Anyweh wi pull up a get fuck up tonight
Woi-oi

Only ups and then down
Ups and downs
Only staying out to forget about
How life comes 'round
It's 5 AM and I'm so in love with this sound

And it's so loud
Yeah, I had enough of it
Fire me up, you can fire
Let's stay out
Let's forget about
