

Don't Cry

Ruel

You've been on and on again
And this time I'm not listening
It's been minutes since we've spoken last
Already talking to my friends
You can't admit it that you lied
That I lied
Yeah I've been upset but I've tried, tried, tried
But boys don't cry

You've been writing novels I'm the inbox to your problems every
weekday
We don't talk much in real life
We fake fight and that's all we do, do
But if it's over then it's over
Doesn't have to be a TV drama
If it's over then it's over

You've been off and on again
I've always been your therapist
And you can't say anymore
You've lost the right to be my friend

I know you're drinking every night, night, night
Yeah I've been upset but I've tried, tried, tried

But if it's over then it's over
Doesn't have to be a teenage drama
If it's over then it's over

If it's over then it's over
Doesn't have to be a TV drama
If it's over then it's over
But boys don't cry
No, boys don't

If it's over then it's over
You don't have to go and make this harder
If it's over then it's over
