

Up To Something

Ruel

It's been way too hard to feel something
You're numb on my skin
Can you speak a little louder?
You're up to something (Ooh)
Are you up to something? (Ooh)

Let you hold me, you love me
We stayed up all night
When you're talking
I'm lucky, but it wasn't right

So I call games and you say I'm dramatic
I say names on your phone, you won't have it
Just a taste of kindness, bite down so bitter
But dead leaves don't wither

It's been way too hard to feel something
You're numb on my skin, can you speak a little louder?
You're up to something (Ooh)
Are you up to something? (Ooh)

Call me crazy, you're bluffin'
You're workin' most nights
If it's worth it, or nothing
Am I justified?

Just a taste of kindness, bite down, so bitter
But dead leaves don't wither, oh
Just a taste of kindness, bite down, so bitter
Karma comes quicker, oh

It's been way too hard to feel something
You're numb on my skin, can you speak a little louder?
You're up to something (Ooh)
Are you up to something? (Ooh)
