

Love U Down

Ruff Endz

I can't wait to be with you
Be laid with you
Be next to you
(I just wanna see you, I just wanna hold you)
I can't wait to be with you
And lay with you
Be next to you

I've been thinking 'bout you baby
You're such an incredible lady
(I usually don't keep the girls I meet)
But please baby pardon me
You've got that (VIP personality yeah)
It's like everything you do is so magical
So unbelievable, but I believe in you
Because heaven sent you

The joy, the love
That feels so good
That pours like rain
That cools the day
Love like I've never known
Love like I've never seen
Love like I've never felt (That love, that love)

The joy, the love
That feels so good
That pours like rain
That cools the day
Love like I've never known
Love like I've never seen
Love like I've never felt (I want to love you down)

Baby let me love you down (Down)
Love you down
I can't wait to be with you
Be laid with you
Be next to you
Honey let me love you down
Love you down
I can't wait to be with you
And lay with you
Be next to you

Quarter to three in the morning
My body's yearning
For your loving
Wishing that I could (Kiss you)
'Cause I really (Miss you)
And it's hard for me to maintain, yeah
(I'ma be out on the next flight to meet you in DC)
I'll bring some candles and her favorite movie
I need to see you and I'm telling you (Truly)
I'll fly away or bring your loving to me, ooh

The joy, the love
That feels so good

That pours like rain (Like rain)
That cools the day
Love like I've never known (Mmmm)
Love like I've never seen
Love like I've never felt (It's so incredible)
