

Love Zone

Ruff Endz

Body so close
Open up your robe
I wanna meet you in the love zone
Oh yeah

Lying over there
Vickie underwear
I wanna meet you in the love zone
Oh yeah

As I walked right through your door
And I looked around the room
Candles everywhere
Smell of her perfume
My heart starts beating faster
Each moment gets me closer
My body's nervous
But I'm ready to consume

As I stare into the dark
An angel watches me
She's lying over there
There's flowers in her hair
I feel your body tremble
As I touch your navel
She whispered in my ear
"I put this on for you"

Baby can you meet me in the love zone
Body so close
Open up your robe
Baby can you meet me in the love zone
I wanna meet you in the love zone
The love zone
I wanna meet you in the love zone

Baby can you meet me in the love zone
Lying over there
Vickie underwear
Meet you in the love zone
Baby can you meet me in the love zone
I wanna meet you in the love zone
The love zone

Now we've just embraced
And we're lips to lips
Love motion
Full body kiss
Them things that only we know
Passion with no ego
Knowing that you've never felt a love like this

As I begin my search
For the softest place on earth
Stomach quivering
Knees are trembling
Hold on tight

Don't let go
How we loving?
Real slow (Real slow)

Baby can you meet me in the love zone
Body so close
Open up your robe
Baby can you meet me in the love zone
I wanna meet you in the love zone
The love zone
I wanna meet you in the love zone

Baby can you meet me in the love zone
Lying over there
Vickie underwear
Meet you in the love zone
Baby can you meet me in the love zone
