

# She Ain't No Good

Ruff Endz

Said I wanna talk about your love

When I woke up this morning  
I woke up to an empty bed  
Got me staring at the ceiling  
Thoughts are racing through my head  
I can't take this shit no more  
This went on too many times before

No more staying up late  
I can't even think straight  
How you just gon' try to take advantage of my love  
When you know you held my heart  
And you had my trust  
If love is pain then I don't want it  
Girl I've peeped enough  
I'm up to here with playing games  
Girl I've had enough

Baby just for the sake of our child  
I tried to love you  
I tried to love you  
Baby just for the sake of our child  
I tried to trust you  
I tried to trust you, ohhh  
(Through whatever you must stay)  
I've had the distance  
The love is missing

Baby no more tears to cry  
I loved you so hard I must let go (Said you no good)  
She ain't no good  
She ain't no good  
She ain't no good for me, no (Ohhh)  
I got to be a man and let her go

She ain't no good  
She ain't no good  
She ain't no good for me, no  
Only in time will the truth be told

She ain't no good  
She ain't no good  
She ain't no good for me, no  
I got to be a man and let her go

She ain't no good  
She ain't no good (Ain't no good)  
She ain't no good for me, no  
Only in time will the truth be told (Oh ha ha)

You shoulda told me  
That you wasn't official  
That you had some issues  
But still I never dissed you  
You shoulda told me  
That three years in the making

My heart you'll be breaking  
All you did was faking  
You shoulda told me  
That you wasn't ready  
That your heart's not steady  
I don't think you heard me  
You shoulda told me  
That when you brought me pain  
My sunshine turned to rain  
And now my life has changed

Baby just for the sake of our child  
I tried to love you  
I tried to love you (I tried, oh I tried)  
Baby just for the sake of our child  
I tried to trust you  
I tried to trust you (Said I tried to trust you)  
(Through whatever you must stay)  
I've had the distance (Stay)  
The love is missing

Baby no more tears to cry  
I loved you so hard I must let go (I've gotta let you go)  
She ain't no good  
She ain't no good  
She ain't no good for me, no  
I got to be a man and let her go

She ain't no good  
She ain't no good  
She ain't no good for me, no (Ain't no good for me, sing)  
Only in time will the truth be told (Ooh baby)

She ain't no good  
She ain't no good  
She ain't no good for me, no (I had to go)  
I got to be a man and let her go

She ain't no good  
She ain't no good  
She ain't no good for me, no  
Only in time will the truth be told (Ooooh)

She got me drowning in misery  
She got me drowning in misery (You got me)  
She got me drowning in misery (Drowning, drowning)  
And that girl she no good for me (She no good for me yeah)

She got me drowning in misery (Drowning, drowning)  
She got me drowning in misery  
She got me drowning in misery (Awe yeah)  
And that girl she no good for me (Baby you're not good for me)

I tried to love you  
I tried to love you (You took my love for granted, sing, oh yeah)  
I tried to trust you  
I tried to trust you (No my love)  
(Through whatever you must stay)  
I've had the distance (I gave you)  
The love is missing (Every part of me baby)

(And I don't know)  
I loved you so hard I must let go (You baby)

She ain't no good  
She ain't no good  
She ain't no good for me, no  
I got to be a man and let her go

She ain't no good  
She ain't no good  
She ain't no good for me, no (She ain't no good for me)  
Only in time will the truth be told (Damn)

She ain't no good  
She ain't no good  
She ain't no good for me, no (Damn, ain't no good)  
I got to be a man and let her go

She ain't no good  
She ain't no good (Stab me in my back)  
She ain't no good for me, no (Ain't no good)  
Only in time will the truth be told (Why'd you do your man like that)

Ain't no good  
Hold me  
No no no  
I'm tired of your games  
Baby love is not the same  
No no  
You've played the fool  
Oh yes you did now  
Now our time has run out baby  
Oh yeah yeah  
Oh yeah
