

Your Body

Ruff Endz

Such an inspiration
Wow look at you
Oh yeah I see you

Ain't no time with us
'Cause girl, you're my crush
Ain't no need to rush
I love when you blush
Your whole style is plush
You're sweet to the touch
Like honey and such
Like cherry pie for lunch

Hey love it's late when we meet
Let me rub your feet
Girl, you're such a treat
It's hard to be discreet
I need this on repeat
You are so much more than what lies beneath

You've been working hard at the gym working on
Your body
Said you got me so fascinated by
Your body
I'm a take my time, I'm a ease you mind
When I touch
Your body
Like the waves crashing to the shore
Your body

You've been working hard at the gym working on
Your body
Said you got me so fascinated by
Your body
I'm a take my time, I'm a ease you mind
When I touch
Your body
Wanna show you my appreciation for
Your body

Is it your love and your hugs and your kisses
Girl how you look
How you feel
How you touch
How you move
Girl when we start ain't gone be no intermission
You gotta \$1 million body
Wanna drive you like a 'Rari
It's just your love and your hugs and your kisses
Girl, it's your type
It's your style
It's your vibe
It's your mood
You got me begging girl start from the beginning
From the head to the route baby girl you all the truth

Girl, it's your discipline and how you get it in

And it's the way you love yourself that I'm admiring
If you're looking for a full-time position, girl I'm hiring
Your body is banging like a buckshot that stays firing
Taking you to that place, girl is the mission
You've been working late and your feet hurt, I'm your foot technician
Girl, you got that buckshot body that stay firing
And the way you work your body is so inspiring

You've been working hard at the gym working on
Your body
Said you got me so fascinated by
Your body
I'm a take my time, I'm a ease you mind
When I touch
Your body
Like the waves crashing to the shore
Your body

You've been working hard at the gym working on
Your body
Said you got me so fascinated by
Your body
I'm a take my time, I'm a ease you mind
When I touch
