

Save The World

Rufio

You pull me by the arm
Tell me what to believe
You tell me there is only one way
One way to see
Whatever faith you choose
May not be for me
How can I be saved
While being forced to believe
Believe.

Lets save the world
One by one
Well make them believe
Conform if they must
Dont question the thought
Its whats always been told
Well make them believe
Lets save the world

So spread the word
And tell me of good news
That if I act right
I can be like you
Well to live is to learn
And think for yourself
And ill do just that
I dont need your help
