

Alone Time

Rufus Wainwright

I need a little alone time
A little dream time
But don't worry I will be back baby
I need a little be-gone time
A little on my own time
But don't worry I will be back baby
To get you on the Mists of Avalon
To save you from the cliffs of lovers leaping off
And on and off and on and off and on

I need a little alone time
A little dream time
Don't worry I will be back baby
I need a little be-gone time
A little on my own time
But don't worry I will be back baby
To get you on the wings of a perfect song
To save you from these stings of having to turn off
And on and off and on and off and on

I need a little alone time
A little dream time
But don't worry I will be back baby
I need a little begone time
A little on my own time
But don't worry I will be back baby

To get you
To get you
To get you
To get you
