Evil Angel

Rufus Wainwright

For to see my depth of sorrow You are not allowed to follow me Into this town square And then run away

Evil angel with your cleft tongue When you kissed me
On this town square
All the lights came on at sunset
Thought you'd stay

Evil angel bearing apples
When you kissed me
On this drawbridge
As the boats do
How was I to know you'd flee

Tear down these monuments
Bury the coat of arms
And build for me a factory

Evil angel when you're faced with hatred's
Daggers in my honor
You're no match no scratching hearts that no longer bleed

Oh Evil angel tear down the monuments Evil angel Bury the coat of arms And rebuild for me these memories For to see my depth of sorrow
