

## Married

Rufus Wainwright

Ya wanna know why I got married?  
And why I decide to stay?  
Just ask the trees in the garden  
They got the answers I'd say

Ya wanna know why I stay with him  
Though he don't love only me?  
Just ask the rocks in the waterfall  
They know the reasons that be

Don't blame me for what I have chosen  
Or what I have tragically become  
In the blink of an eye I did get here my dear!  
Seasons endings begun  
But who knows what will then happen  
Now that I've finally spoke the truth  
The trees won't burn down and the rivers won't freeze over  
But it will feel like the end of the earth  
It will feel like the end of the earth

Ya wanna know why I got married?  
And why I decide to stay?  
Just ask the trees in the garden  
They got the answers I'd say
