

# Luv Again

Ruger

Still lied  
No falling in love on this side  
Now, I know what it feels like  
Don't know what to do now, it seems like  
I still need somebody to rely on  
See, no be joke, na real life ooo  
If you give me the green light  
What's the deal like?  
I should tell you one thing about me

Baby gyal, see, I don't like being alone  
I don't like sleeping alone  
So, just know that if we break up  
I'll be on the phone with someone new  
Baby girl, if I no yarn you, you'll never know  
For way too long, I've been cold  
Play it by ear  
And tell me when you feeling someone new

I tell you say "I no go luv again"  
I tell you say "I'm a playboy oh"  
Now see, I don fall again  
Let's give it a try  
Make we see as e go go  
Now see, I don gock again  
Me wey be say I be playboy oh  
Now see, e don sup again  
Something wey I dey run from  
Make we see as e go go

And if I give you my heart, will you hold it  
Or for a good price, you'll give it up?  
You need to know when I'm really in love  
I'll never give you half bread, better give you none  
Let me ask, "If I act like an ass  
Would you still let me clap your ass on my marble floors"?  
I'm so toxic bae  
A thing you should know about me

Baby gyal, see, I don't like being alone  
I don't like sleeping alone  
So, just know that if we break up  
I'll be on the phone with someone new  
Baby girl, if I no yarn you, you'll never know  
For way too long, I've been cold  
Play it by ear  
And tell me when you feeling someone new

I tell you say "I no go luv again"

Now see, I don gock again  
Me wey be say I be playboy oh  
Now see, e don sup again
