

Red Flags

Ruger

Don't know, yeah, see...
Don't know what you think this is
Is it love or lust baby I don't know which is
Thought I told ya I can't fulfill your wishes
I'm a fucking star on every girl's wishlist
But you never for once listened
You're not the only one got several bitches
But before I go take some kisses
And never doubt the fact say I love you pieces

She said Ru baby this ain't you
You're not the sweet guy I once knew
Tell me what changed
Did I do anything wrong
Or you just don't love me anymore
She said Ru baby this ain't you
You're not the sweet guy I once knew
Why did you change so bad towards me
You're treating me like shit
Me tell her say

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest
Or you end this now

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest
Or you end this now

Huh
Baby gyal no time we gotta end this now
Let's stop lying
Omo see na true talk I no fit settle down
Time's not on your side
Check the clock
I know you fell in love with my cock and Glock
I'm a billion reasons why we can't work oh baby

She said Ru baby this ain't you
You're not the sweet guy I once knew
Tell me what changed
Did I do anything wrong
Or you just don't love me anymore
She said Ru baby this ain't you
You're not the sweet guy I once knew
Why did you change so bad towards me
You're treating me like shit
Me tell her say

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest

Or you end this now

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest
Or you end this

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest
Or you end this now

You saw the red flags baby
But you ignored the red flags
Now you're here baby you come dey vex
See I can't change baby you better rest
Or you end this now
