

Runaway

Ruger

We keep
We keep sorting it out with sex
Me know it's what you really like
Till when it starts to get so boring
Now I'm feeling like
This feeling draining up my soul
Me baby I can't cope
Me thinking we can't float no more
Sarah, I'm getting tired of you and me tonight
All two of us will leave tonight
I swear I'm standing on biz tonight
I'll shoot you before you kill me

However it goes, I'll regret tonight
I know you're up to nothing right
Won't let you have your way tonight
I'll shoot you before you kill me

You can't choose to runaway (ay)
After all you did
You hurt me I chose to stay
You ruined all my days
See, I can't choose to runaway
After all I did
I hurt you you chose to stay
I ruined all your days

May be better you runaway (oh-oh)
Cuh the problem's when you stay (oh-oh)
May be better you runaway (oh-oh)
Cuh the problem's when you stay (oh-oh)

One day you want to come caress me
Another day you want to ex me
You was my twin, my love, my bestie
I used to love you love you plenty

Are we meant to be?
If you really love me, my desire
Well my heart is burning, it's on fire
Used to get me high like ecstasy
Now you're really only stressing me ooh-ooh-ooh-ooh
I don't really like the jealousy
I don't really want the wrestling ooh-ooh-ooh-ooh

However it goes, I'll regret tonight
I know you're up to nothing right
Won't let you have your way tonight
I'll shoot you before you kill me

You can't choose to runaway (ay)
After all you did
You hurt me I chose to stay
You ruined all my days
See I can't choose to runaway
After all I did
I hurt you you chose to stay

I ruined all your days

May be better you runaway (oh-oh)

Cuh the problem's when you stay (oh-oh)

May be better you runaway (oh-oh)

Cuh the problem's when you stay (oh-oh)
