

# The Beer From My Town Is Better Than Yours

Rumahoy

I come from a land, far far away  
Where we brew great beer every single day  
It comes in pints and it's served ice cold  
And the recipe to make it is very very old

But today I have come to you shitty little town  
And my smile has turned right upside down  
Cos they served me a beer and it tastes like piss  
I am Captain Yarrface, I can't drink this!

So I believe that you will trust me  
When I say that this beer's no better  
Than what I produce in my bathtub

The beer from my town is better than yours  
The beer from my town is better than yours  
And all your women are ugly whores  
Cos the beer from my town is better than yours  
The beer from my town is better than yours  
The beer from my town is better than yours  
I could teach you, but I'd have to charge  
Cos the beer from my town is better than yours

I went to France to drink some beer  
It tastes like greasy anal smears  
In Germany I quaffed a lot of booze  
It reminded me of smelly old shoes

I drank a pint in Eng-er-land  
But it was warm and tasted bland  
And when I got very drunk in Belgium  
I thought I was drinking toilet scum

So I believe that you will trust me  
When I say that this beer's no better  
Than what I produce in my bathtub

The beer from my town is better than yours  
The beer from my town is better than yours  
And all your women are ugly whores  
Cos the beer from my town is better than yours  
The beer from my town is better than yours  
The beer from my town is better than yours  
I could teach you, but I'd have to charge  
Cos the beer from my town is better than yours

So I believe that you will trust me  
When I say that this beer's no better  
Than what I produce in my bathtub  
Awww mate it's fucking disgusting

The beer from my town is better than yours  
The beer from my town is better than yours  
And all your women are ugly whores  
Cos the beer from my town is better than yours  
The beer from my town is better than yours  
The beer from my town is better than yours

I could teach you, but I'd have to charge  
Cos the beer from my town is better than yours
