Somethin' 'bout the way you talk to me
It feels so right
And when we fight, we make up easily
Somethin' 'bout the way you look at me
'Cause in my mind
When we're high, I'm still falling

But I don't know exactly where we are
I just know we're more than friends
It's never easy to pretend

But can we talk about love?
And why it comes and goes?
If we never try, we'll never know
But can we talk about trust?
And why it never lies?
Can we talk about why we've never tried?
Can we talk about love?
Love, love, love
Love

Can't lie
Feel like it's the right time
Nothing wrong with bein' shy
I can make you smile
Feel like I'm the right guy
Now I never wanna leave
Fell in love in Southeast
But we both on our way
To a brighter place

But I don't know exactly where we are
I just know we're more than friends
It's never easy to pretend

But can we talk about love?
And why it comes and goes?
If we never try, we'll never know
But can we talk about trust?
And why it never lies?
Can we talk about why we've never tried?
Can we talk about love?
Love, love, love
Love
