

Greed

rum.gold

It's nice to meet you, rum
I know everything you want and more
I won't do no harm
I'm something like a curse

We'll be fucked up on a fast track to fake friends
Fast cars, summer nights
White lines, rich shit
Black ice, goodbyes, you made it
We'll be fucked up on a fast track to joy rides
Date nights, strange fruit
Daydreams to limelights
Live fast, die young, don't fight

Please forgive me, father
For my sins will smother
Me, your greedy lover
I'm your worst desires
Damn, my heart is racing
Oh, what am I chasing?
Feel my soul is changing
For what am I waiting?

I won't be here long
Just until you take your final breath
You're the one I want
It's something like a charm

We'll be fucked up on a fast track to fake friends
Fast cars, summer nights
White lines, rich shit
Black ice, goodbyes, you made it
We'll be fucked up on a fast track to joy rides
Date nights, strange fruit
Daydreams to limelights
Live fast, die young, don't fight

Please forgive me, father
For my sins will smother
Me, your greedy lover
I'm your worst desires
Damn, my heart is racing
Oh, what am I chasing?
Feel my soul is changing
For what am I waiting?
Please forgive me, father
For my sins will smother
Me, your greedy lover
I'm your worst desires
Damn, my heart is racing
Oh, what am I chasing?
Feel my soul is changing
For what am I waiting?

We can steal hearts, cut ties, break shit
Eat well, tell a lie, burn it
Kill 'em all, make love all night

Don't fight it
Call me greed
Call me greed
