

# Human

You can sin however you'd like baby  
Cause I wear mine on my sleeve

We can take forever or a minute baby  
It's all the same to me

Let down your fears  
Take down your walls  
It's only our shadows that dance in the dark

Tell me no lies  
Brace for the fight  
I'll be your shelter in the night

Human  
I want you to be human  
I want you to be human  
I want you to be free  
And while you're here with me

Human  
I want you to be human  
I want you to be human  
And there's no guarantees  
But while you're here with me

I parted the ocean to find you  
Jumped from your venus to your moon

Left a trail of tears to flow into your soul  
And I am yours to choose

Let down your guard  
Follow the signs  
Teach me your game of hearts  
It's all in your mind

Tell me no lies  
Brace for the fight  
I'll be your shelter in the night

Human  
I want you to be human  
I want you to be human  
I want you to be free  
And while you're here with me

Human  
I want you to be human  
I want you to be human  
And there's no guarantees  
But while you're here with me

Human  
Oh  
Human  
I want you to be human
