

## Northeast

rum.gold

When you're on a tour in Washington, lemme tell you those tours are all the same. The Capitol, the Hoover Building, maybe sometimes they would even show you the Washington Monument. But that's not a look at the real Washington. The one I'd like to show you is something special. You wanna see what's happening in the Nation's capital? Come with me

What happens in this house stays in this house, don't ask me for nothing

Spent my last on you and your brothers, I know you probably miss your father but that nigga never coming back, he only cares about himself

This ain't the life that I thought I'd be living, I'm a kid raising a kid

I had your oldest brother at sixteen, I don't know shit about being a mother, I had no mother who could teach me

Maybe I'm just better off alone, I can burn it down all on my own, maybe I'm just better off, just better off dead and gone  
Now that I have nothing left to lose, we can take it all and light the fuse, maybe I'm just better off, just better off dead and gone

Cause all I know is sacrifice, it's hell on Earth but it's paradise, here in Northeast, here in Northeast

Cause all we know is sacrifice it's hell on Earth but paradise, here in Northeast, here in Northeast
