Run River North

I do right by all I know
Images on the wall say the same
Spotlight or shadow
My life and my worth is my name

Take this farther
Makes me stronger
Make this harder
Makes me stronger

Feel the light inside me
Reaching beyond my failing
See the crowd surround me
Leave the ground, I feel higher

Ooh ooh, ooh ooh
See the crowd surround me
Ooh ooh, ooh ooh
Leave the ground, I feel higher

Can't wash the shade from pavement
Feels like they follow in my sleep
Once a man with room to shine
The demons they come nipping at my feet

Take this farther
Makes me stronger
Make this harder
Makes me stronger

Feel the light inside me
Reaching beyond my failing
See the crowd surround me
Leave the ground, I feel higher

Ooh ooh, ooh ooh
See the crowd surround me
Ooh ooh, ooh ooh
Leave the ground, I feel higher

The morning's coming closer
Taking the night away
The dream is almost over
Here comes the light

The morning's coming closer
Taking the night away
The dream is almost over
Here comes the light

Feel the light inside me
Reaching beyond my failing
See the crowd surround me
Leave the ground, I feel higher

See the light inside me
Reaching beyond my failing

Feel the crowd surround me
Leave the ground, I feel higher

Images on the wall stay the same
