

# Hands Up

## Run River North

Hands up, what?  
Remember when I let you down?  
Remember when it all just fell apart?  
Remember when you turned around?

I looked up once before you said what you now mean  
Seconds changed the face you made  
The look of settling  
Say you've been tired  
Say you've been safe  
Call me out if it keeps you in it  
But don't leave now in the middle of a feeling

Hands up, what?  
Remember when I let you down?  
Remember when it all just fell apart?  
Remember when you turned around?  
Hands up, what?  
I never wanna let you down  
I never wanna feel the way we did  
I never wanna go back down

I lost the fire, it got washed up in the flood  
Of all the words to call my name these stones say enough  
I've been tired  
I don't feel safe  
Hold me down, oh, I feel like swinging  
Oldest kid in a cold war singing

Hands up, what?  
Remember when I let you down?  
Remember when it all just fell apart?  
Remember when you turned around?  
Hands up, what?  
I never wanna let you down  
I never wanna feel the way we did  
I never wanna go back down

(All my life, da-da-da-da-da-da, da-da-da-da-da-da)  
(All my life, da-da-da-da-da-da, da-da-da-da-da-da)  
I don't need someone to believe in  
I just need you next to me  
I just need you next to me  
(All my life, da-da-da-da-da-da, da-da-da-da-da-da)  
I don't need someone to believe in  
I just need you next to me  
I just need you next to me  
(All my life, da-da-da-da-da-da, da-da-da-da-da-da)  
I don't need someone to believe in  
I just need you next to me  
I just need you next to me

Hands up, what?  
Always gonna let you down  
Always gonna feel the way we did  
I hope you figure it out  
Hands up, what?

Always gonna let you down  
Always gonna leave this up to you  
And I hope you figure it out  
Hands up, what?  
Always gonna let you down  
Always gonna feel the way we did  
And I hope you figure it out  
Hands up, what?  
I'm always gonna let you down  
Always gonna leave this up to you  
And I hope you figure it out  
Hands up
