

# Spiders

Run River North

Spiders up the wall  
Up to the ceilin'  
I can't shake 'em off  
'Cause no one sees them  
Why the silly face  
When the room's so serious  
No one's happy  
And it's never enough

Just the way it is  
Just the way it is  
It's just the way it is for now  
Just the way it is  
Just the way it is  
It's just the way it is for now

Feel like I'm losin' my head  
Caught up in the  
Pieces don't seem to fit  
Don't leave me in  
The middle of your web  
Spinnin' yeses and noes  
I can't make sense  
Of what you don't even know

Just the way it is  
Just the way it is  
It's just the way it is for now  
Just the way it is  
Just the way it is  
It's just the way it is for now

Lately I've been stuck like gum  
Under the desk of a classroom I once slept in  
Chewed all of its flavor and love  
The bubble never blew up  
The basket was just too far  
I think I'm goin' too far  
Don't remember where I parked

Just the way it is  
Just the way it is  
It's just the way it is for now  
Just the way it is  
Just the way it is  
It's just the way it is for now

The basket was just too far  
I think I'm goin' too far  
Don't remember where I parked
