

She's at home all alone I wanna call her on the phone
Whatcha doing right now?
Outta luck pick me up somewhere in Santa Monica
So sick of this town (gotta get out get out)

...Let's roll out, no stressing
Go grab your favorite dress its
So simple it's crazy
The way I'm feeling lately

Take my angel out to Vegas
Gonna leave LA
So over Hollywood
She drives me crazy
Feels so outrageous
Can't get enough
Tonight's the night she turns 21!

Let's pretend this won't end
Another drink so many friends
Feeling so good yea we're alright
We been up we been down
We let the world spin us round
Take my hand let's go all night

...Cuz when I'm by your side
I start to get the feeling
Everything will be cool
And I keep on believing
Baby the stars in seeing

Take my angel out to Vegas
Gonna leave LA
So over Hollywood
She drives me crazy
Feels so outrageous
Can't get enough
