

Always Wanted More

Running Touch

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love
(Now I've got you feeling too my love)

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love
(Now I've got you feeling too my love)

You tell me what I need and hide
Take away my fire
I sat up on my knees all night
See it in my eyes

Don't you say it well
You're all fine, sure we're trying
Don't you say it well
We're not fine and that's alright

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love

Lonely night for me
Feel it all the time
Hurricane in D, and I
Tam on my mind

Don't you say it well
You're all fine, sure we're trying
Don't you say it well
We're not fine and that's alright

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love

Because I always wanted you my love
Always wanted more
But I've got you feeling too my love
(Now I've got you feeling too my love)

Because I always wanted you my love
Always wanted more

But I've got you feeling too my love

Because I always wanted you my love

Always wanted more

But I've got you feeling too my love

(Just say it, Just say it)

(Now I've got you feeling too my love)

Because I always wanted you my love

Always wanted more

Now I've got you feeling too my love

Because I always wanted you my love

Always wanted more

Now I've got you feeling too my love
