

Come With Me

Running Touch

Are you coming with me, today?
Did you come here for me?

You're only going make this harder
With you in-between me
It's morning and I haven't slept yet
I've been painting for days

Oh if you could run away would you just slip away?
Would you just go?
Oh I've got to get away, thinking you'll come with me
Thinking we go

Right now
Hold my hand now
Take me there now
No regret
We've got to stick together now
Hold my hand now
Take me there now
No regret
Would you come with me?
Are you coming with me today?
Did you come here for me?

Everything I'm hearing hollow
I can't stay
Looking at the paint set harder
But I've got to leave

Oh if you could run away would you just slip away?
Would you just go?
Oh I've got to get away, thinking you'll come with me
Thinking we go

And I feel so weak but you know I can't come home tonight
I've got to get away oh I
The keys you can keep because I can't stay here tonight
I've got to get away

Right now
Hold my hand now
Take me there now
No regret
We've got to stick together now

Hold my hand now
Take me there now
No regret, yeah
Would you come with me?
Are you coming with me today?
Did you come here for me?

And we could go anywhere
As long as we're together
And we could go anywhere
As long as we're together

And I wanna go
And you gotta leave
Could we go together babe?
Just you and me?
I know it's hard
But we've got to see
When we leave you'll see
