

Equaliser

Running Touch

Don't tell me I'm drunk, lost and unstable just call me the equaliser [x4]

Don't tell me I'm...

Equaliser, don't you wanna (don't tell me I'm)

Don't tell me I'm drunk, lost and unstable just call me the equaliser [x2]

Never said that I care what your name is

I don't want any names any feelings

Can't you see that I came here just to listen...

And it's never for a name or a reason

This is what you really need

Could you treat it like a memory

You don't have to play this down

I call it the equaliser

You will never tire

Now I know, this is how every week, every drink, needs to be

Equalizer don't you wanna

(Don't tell me I'm drunk, lost and unstable, just call me the equaliser)

Never said that I care who you came with

Never wanted to pay for a feeling

Something about that I don't need to drink this

You know you end your night in your feelings

This is what you really need

Could you treat it like a memory

You don't have to play this down

I call it the equaliser

You will never tire

Now I know, this is how every week, every drink, needs to be

I ain't listenin' to a goddamn word you say

All you ever do is nag nag nag anyway [x2]

Don't tell me I'm drunk, lost and unstable, just call me the equaliser [x5]

Equaliser, don't you wanna (don't tell me I'm)

Don't tell me I'm drunk, lost and unstable, just call me the equaliser [x2]

I call it the equaliser

You will never tire

Now I know, this is how every week, every drink, needs to be
