

## I Can't Wait All Night

Running Touch

I can't wait all night, I need you here right now  
You keep me up all night, you break me everytime

I can't wait all night, I need you here right now  
You keep me up all night, you break me everytime

I need you here

You know you're getting hard to follow  
It's too much for me  
I know that this is hard to swallow  
You make it hard for me  
I know it's hard for you to swallow  
Please listen to me

Got to let it go, let it all go

I can't wait all night, I need you here right now  
You keep me up all night, you break me everytime

I need you here
