

# Juno

## Running Touch

I ripped out the back page  
Singing Portishead  
Juno  
My calling

You gave a ready-made stare  
Just like a coke dream  
Juno  
It's hurting

I stole 6 black Benz  
From the valet room  
Juno  
Tap me  
The meadow in my car

You know I told you from the start

The blood we all shared back in January  
The flag above with Andy underneath  
You look me in the eyes, we said our peace  
Like Juno, you are to me  
The blood we all shared back in January  
The flag above with Andy underneath  
You look me in the eyes, we said our peace  
Like Juno, you are to me

I grew heels from the bone  
Big shiny things  
Juno  
My calling

My whole tongue broke off  
Like a wedding ring  
Juno  
It's hurting

I brought the blue headstock  
And the back key  
Juno  
Tap me  
I'm bred for the stars  
You know I told you from the start

The blood we all shared back in January  
The flag above with Andy underneath  
You look me in the eyes, we said our peace  
Like Juno you are to me  
The blood we all shared back in January  
The flag above with Andy underneath  
You look me in the eyes, we said our peace  
Like Juno you are to me

Not just another name  
Not just a pretty face
