

Make Your Move

Running Touch

Have I said all this now just to feel your touch
'Cause I never knew you'd be this heartless, yeah
When you say you do what you did just for me
You left the mountain and let me see
A second heart was hanging from her neck
You were never going home by yourself, yeah
I don't want what you left behind, it's exactly now a game
But I'm here with you wanting more, this time I can't be tamed

You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves

I say softly I know what you need
There's nothing bad to say back to me, yeah
You say that you've been waiting in between
The years where it's hard to breathe
You can bridge and that won't stop myself from you
Is it always there and only there for you, yeah
I don't want what you left behind, it's exactly now a game
But I'm here with you wanting more, this time I can't be tamed

You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves

Don't worry
Just make your move on me
'Cause I don't need to wait
Just make your move on me
On me

You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves
You better make your move, I'm ready
I'm not waiting around on new moves

You better make your move, yeah, yeah
You gotta make your move, yeah, yeah, yeah
Ooh-ooh, ooh
