

## Meet Me

Running Touch

Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere  
Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me

Through all your games, all your lies  
I ain't found another high  
No high, no high  
Through all the pain, all those nights  
You don't want me but want what's mine  
You want what's mine  
Might as well

Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me

You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere  
Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere

Someone like me you've never had it before  
But I know that's a lie because I've said it before  
Someone like me you've never had it before  
But I know that's a lie because I've said it before  
Someone like me you've never had it before  
But I know that's a lie because I've said it before  
You need me, so meet me

Through all the calls, all the signs  
I never found another high  
No high, no high  
Through all your rooms, I'll cut all my ties  
I don't need this, not this time  
No high, no not this time  
Might as well

Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me

You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere  
Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere

Someone like me you've never had it before  
But I know that's a lie because I've said it before  
Someone like me you've never had it before  
But I know that's a lie because I've said it before  
Someone like me you've never had it before  
But I know that's a lie because I've said it before  
You need me, so meet me

What should I say, what should I do?  
No there's no time, I'm gonna lose  
So could you meet me, meet me  
Might as well

Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me

You could meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere  
Meet me, just meet me, just meet me somewhere  
You could meet me, just meet me, you could meet me somewhere

You walked up to me, and you said it back to me  
And you walked up to me, and you said it back to me  
And you walked up to me, and you said it back to me  
And you walked up to me, and you said it back to me
