

Stay

Running Touch

Don't tell me how to feel
You're acting like this was something real
I know what you do
And you were right there
Said it was me, didn't care (didn't care, you didn't care no)

Situation busy, but it's been like this all night
Got give it some time
It's getting late, that's alright
Of course you got them talking like it's been like this all night
You do it like it's nothing my love

Situation busy, but it's been like this all night
Got give it some time
It's getting late, that's alright
Of course you got them talking like it's been like this all night
You do it like it's nothing my love

Baby I could really make you stay
I thought I heard you say
Is there a place where we could go?

Don't tell me what I need
I just want some time, I need this to be real
You bought your time there
I won't pay you mine, no
(Won't pay you mine, won't pay you no no)

Baby I could really make you stay
I thought I heard you say
Is there a place where we could go?

Say we

Is there a place that we could go?

It's what you do (You do)
You know (You know)
You trap me inside, you leave me out there

It's what you do (You do)
You know (You know)
You trap me inside
