

When I'm Around You

Running Touch

When I'm around you, baby
When I'm around you, baby

Why did I go and leave so soon?
I should have said that I would stay, stay for you
What would you go and do with me?
Could I give you what they gave, gave to you?

Because I came to find you
This doesn't mean I wouldn't lie to you
And this couldn't mean I'm good enough for you, no
Because I came to find you
This doesn't mean I wouldn't lie to you
And would you drink yourself loose?

Both hands on my face
Kiss me like you're lonely
I left you dead and sayin' "If only"
Both hands on my face
Kiss me like you're lonely
I left you dead and

When I'm around you, baby
When I'm around you, baby

Why did I say so soon
That I could be something else?
Someone new
You can love parts of me
The ones that I never gave you

Because I came to find you
This doesn't mean I wouldn't lie to you
And this couldn't mean I'm good enough for you, no
Because I came to find you
This doesn't mean I wouldn't lie to you
And would you drink yourself loose?

Both hands on my face
Kiss me like you're lonely
I left you dead and sayin' "If only"
Both hands on my face
Kiss me like you're lonely
I left you dead and

There was never a last time together
'Cause I never made it to you
To you
There was never a last time together
'Cause I never made it to you

When I'm around you, baby
When I'm around you, baby
When I'm around you, baby

There was never a last time together
'Cause I never made it to you

There was never a last time together
'Cause I never made it to you
