Running Wild

Nuclear tests that reap up wealth for the rich They're selling their souls like a rotten sleazy bitch Contaminated children are born to live in pain No common sense if avarice rules the game Atomic power is a dangerous and useless toy Telling people, it's harmless is a cunning ploy Allegiance is their ally so they do as they please They are firm in their saddle no critics there to tease Watch out there gonna blast you Their bombs are made to kill Contracts made for profit Until they've got their fill Dancing on a minefield After the blast then you're dying fast Dancing on a minefield Poisoning life and no one will survive Politicians get their share when they cheat and lie The atomic lobby gets rich when the children die Setting the world on fire like playing a game Like an insane arsonist who's lighting the flame Watch out there gonna blast you Their bombs are made to kill Contracts made for profit Until they've got their fill Dancing on a minefield After the blast then you're dying fast Dancing on a minefield Poisoning life and no one will survive
