

Pile of Skulls

Running Wild

Hey, Mr. Pope, Mr. Military Man
Kings and Queens more evil that it seems
You lie, you cheat, you betray, you kill all the way
You wade through blood in your boots of steel
You hide the truth from its reveal
The world's bleeding wounds will never heal
So look in the mirror and see who you are
You made our lives an abattoir
A man-eating machine that's what you are
Pile of skulls, conspiracy
Beware of the revealing key
No dance of joy, no harmless spree
No chance for you to hide or flee
Liar's tongue, tricks of deepest dye
Snake-skinned pack, you're evil and you're sly
Unjust, you hunt, you hate, you take all the way
Cutting throats with poisoned blades
Your recklessness overflows the graves
You try to make us all your slaves
So look in the mirror and see who you are
You made our lives an abattoir
A man-eating machine that's what you are
Pile of skulls, conspiracy
Beware of the revealing key
No dance of joy, no harmless spree
No chance for you to hide or flee
Tears and pain, never ending shame
Bloodsucking lice, play their evil game
Your doom is sealed, the truth revealed all the way
Headless you still run around
You can't believe you're losing ground
On your knees to take the count
So look in the mirror and see who you are
You made our lives an abattoir
A man-eating machine that's what you are
Pile of skulls, conspiracy
Beware of the revealing key
No dance of joy, no harmless spree
No chance for you to hide or flee
Pile of skulls, conspiracy
Beware of the revealing key
No dance of joy, no harmless spree
No chance for you to hide or flee, yeah
