

Ride on the Wild Side

Running Wild

Friday night and you feel it's comin'
Your blood's pumpin' in your veins
A drink or two and the engine's runnin'
Adrenaline erases all the pain
You show your ticket and you're getting in now
You're runnin' down to the barricades
First row, so take it slow now
You made it back, you win the race

Come on, take a ride on the wild side
Come on, take a ride on the storm
Come on, take a ride on the wild side
Till all your blues is gone

The storm is on, the lights went down
Shadow-play right on the stage
The band starts to shake the ground
Fist high, you're falling in a rage
They're playin' all your favorite tracks now
You shout it out, just right on top
Frustrations fading somehow
You go wild 'cause the band is hot

Come on, take a ride on the wild side
Come on, take a ride on the storm
Come on, take a ride on the wild side
Till all your blues is gone

Friday night and you feel it's comin'
Your blood's pumpin' in your veins
A drink or two and the engine's runnin'
Adrenaline erases all the pain
You show your ticket and you're getting in now
You're runnin' down to the barricades
First row, so take it slow now
You made it back, you win the race

Come on, take a ride on the wild side
Come on, take a ride on the storm
Come on, take a ride on the wild side
Till all your blues is gone

Come on, take a ride on the wild side
Come on, take a ride on the storm
Come on, take a ride on the wild side
Till all your blues is gone

Take a ride on the wild side
Till your blues is gone
