

# Walpurgis Night

Running Wild

The streets are empty, all men are hidden home  
I wonder why, what's going on here?  
Someone shouts "stop boy"  
don't move on that way.  
Tonight they're hunting for someone, for someone just like you.  
I see fire, fire in the night  
Symbols are burning so bright  
It's the sign, the sign of women's fight  
All men are so frightened  
Thousand wild witches are screaming through the night  
They are thrilling with their magic, tragic is the daughter's fight  
Pointing at me with their fingers, saying "you are the sin"  
"Let's take him to our mountain to purify his soul"  
I see fire, fire in the night  
Symbols are burning so bright  
It's the sign, the sign of women's fight  
All men are so frightened  
[Solo]  
They bind me to a pole, naked they are beating with whips  
They torture to inquire, hate is on their lips  
Suddenly, the queen of the witches shouts "he is mine"  
Naked she comes to violate me, there is no harder love in town  
I see fire, fire in the night  
Symbols are burning so bright  
It's the sign, the sign of women's fight  
All men are so frightened  
[Solo]
