

Wheel of Doom

Running Wild

Religious madness is made to rule
Fights the sceptic with hate
Blind believers, the credulous fool
Weak and delivered to fate
A slave to science, prejudice view
Its constant dogma is law
Caught in dumbness, no mind, no clue
Ignorant down to the core
It's you, keeping the hand on the wheel
It's you, ruling the fate
It's you, keeping the power to change the world
Before it's too late
The wheel of doom, turning circles
The wheel of doom, your hand on the wheel
The wheel of doom, light or darkness
The wheel of doom, no lying, no deal, the wheel
They cheat and lie and lie and cheat
Stagnation is serving their aim
Materialists gonna feed their greed
Praising the evil's name
Blinded tools made to obey
No mind, no thoughts, no repent
Deny the truth and you'll have to pay
You ruin yourself at the end
It's you, keeping the hand on the wheel
It's you, ruling the fate
It's you, keeping the power to change the world
Before it's too late
The wheel of doom, turning circles
The wheel of doom, your hand on the wheel
The wheel of doom, light or darkness
The wheel of doom, no lying, no deal
Don't stuck on relics that block your way
Don't be a wheel in their gear
So free yourself or you'll have to pay
Open your eyes wipe away your fear
It's you, keeping the hand on the wheel
It's you, ruling the fate
It's you, keeping the power to change the world
Before it's too late
The wheel of doom, turning circles
The wheel of doom, your hand on the wheel
The wheel of doom, light or darkness
The wheel of doom, no lying, no deal, the wheel
The wheel of doom
