

# Wild & Free

## Running Wild

You're gonna start the fire  
And the tires are running hot, so hot  
Speeding up now  
You're riding strong and proud  
And the engine's pumping loud, so loud  
Oh yeah

Start the engine, adrenaline to pump  
Wheels are rolling, the heartbeat starts to jump  
Roaring tailpipe, the pistons' running hot  
Steel is moving, the motor's on the spot

You're gonna start the fire  
And the tires are running hot, so hot  
Speeding up now  
You're riding strong and proud  
And the engine's pumping loud, so loud  
Oh yeah

You go wild & free, running up the highway  
Wild & free, you go up around the bend  
You go wild & free, say I do it my way!  
Wild & free, you're going round and round  
Up around the bend

Wind is rushing, a pressure on your face  
Fuel is burning, the metal starts to race

You're gonna start the fire  
And the tires are running hot, so hot  
Speeding up now  
You're riding strong and proud  
And the engine's pumping loud, so loud  
Oh yeah

You go wild & free, running up the highway  
Wild & free, you go up around the bend  
You go wild & free, say I do it my way!  
Wild & free, you're going round and round  
Up around the bend

You're gonna start the fire  
And the tires are running hot, so hot  
Speeding up now  
You're riding strong and proud  
And the engine's pumping loud, so loud  
Oh yeah

You go wild & free, running up the highway  
Wild & free, you go up around the bend  
You go wild & free, say I do it my way!  
Wild & free, you're going round and round  
Up around

You go wild & free, running up the highway  
Wild & free, you go up around the bend  
You go wild & free, say I do it my way!

Wild & free, you're going round and round  
Up around

You go wild & free
