

# Snowplow

Runnner

The road gets plowed  
Trudging through the frozen clover  
I feel better now  
Still I'm always going over

My phone goes off  
Got rejected from a new job  
In the parking lot  
Coming up with different problems

You were whom I'd hoped to see  
Sitting in your favorite chair  
The third time this week  
That we've both been here  
At urgent care
