

Fences

RUNTOWN

The pain will elevate the passion
Going through the phases
Coming likka headshot
Bullet to the senses
Want me dead, dem no want me in the benzes
So I'm building fences
Through definition of a rockstar
Story of my life
One hand on my bible, other on my riffle
No be Banta you go see the matter
Issa long matter

Blow big smoke like fela kuti
On a presi-presidential
But stay ready like a prayer mantis

Dem ah try kill my vibe, kill my vibe
But Jah steady shower man blessings
For my life, for my life, for my life

Touchdown Kingston
So mi link mi shatta
Feeling like kaskar
Everything gangster
Call Rasta, tell him bring the ganja
Call Rasta, tell him bring the ganja

No time for the talking
I just wanna cash out
Baby know what's up
She Dey feel the lifestyle
We go give dem for a very long time
Oh long time

The pain will elevate the passion
Going through the phases
Coming likka headshot
Bullet to the senses
Want me dead, dem no want me in the benzes
So I'm building fences
Through definition of a rockstar
Story of my life
One hand on my bible, other on my riffle
No be Banta you go see the matter
