RuPaul

(Ooh, wah, wah)

(Ooh, wah, wah)

L-U-C-K-Y, baby, come on  
Pussy on fire  
You're so lucky tonight  
'Cause I'm givin' you the show that you want  
L-U-C-K-Y, honey, honey  
A little twist and slide  
You're so lucky tonight  
'Cause I'm givin' you the show that you want

Wake up, girls, it's now time to listen  
Hand on your hip and assume the position  
Mama Ru said that we're all born naked  
Gottmik says, "love your body, don't fake it"  
Here's the tea, I put in work, baby  
So fight for yourself and let all the basic haters lurk, baby  
That face that's stamped so right  
Clown paint and waist so tight  
Boys, girls, and in between  
It's time to crown your queen, let's go

Yo, the Muse is back  
Top four, bitch, on the track  
She 'bout to bring it back  
And you hoes better watch your backs  
Queens wish they had my spot  
They said I would go first  
Now I'm laughing from the top (Ha ha ha ha!)  
From the hood to Hollywood  
With three bad bitches on my side  
Number one showstopping diva  
Now I'm ready for my crown, bitch

Had, had to get your attention, that wasn't hard  
Now I just need to mention that you are

L-U-C-K-Y, baby, come on  
Pussy on fire  
You're so lucky tonight  
'Cause I'm givin' you the show that you want  
L-U-C-K-Y, honey, honey  
A little twist and slide  
You're so lucky tonight  
'Cause I'm givin' you the show that you want

You're so lucky  
You're, you're so lucky, lucky  
You're so lucky  
Y-O-U-R-E so lucky

Little Scottish boy grew up to be the supreme  
I'm the definition of American Dream  
Lucky for my daddy who believed in a star  
But take it from Rosé, you better work to go far  
Every single thing about the bitch is right

Magnify the résumé, the font is tight  
I can rap? What a gag  
Check it, baby, this is drag

(Ahh) You wanna, wanna taste of me?  
(Ahh) I'm the mothertuckin' Ebony...  
Enchantress, it took a minute, oh, but now I see  
(Ahh) I'm the Sugar Honey Iced Tea  
(Ahh) I got the fashion, beauty, and the brains  
You see that crown? Oh, baby, that's for me

Had, had to get your attention, that wasn't hard  
Now I just need to mention that you are
