

Party Train

RuPaul

(Party train
Party train)
All aboard

(Come on ride the train)
All aboard the party train
Hurry up and don't be late
Doo wop, don't you stop
Take this mother to the top
Going down the groove line
You came just in time
Wham, bam, thank you man
Everybody join the jam

Come on and feel what the choo-choo can do
It'd be a shame if it left without you
We're gonna work it 'til the night is done
We leave the station at a quarter 'til two
Our destination is up to you
Don't miss out and be the only one

(Come on ride the train)
All aboard the party train
Hurry up and don't be late
Doo wop, don't you stop
Take this mother to the top
Going down the groove line
You came just in time
Wham, bam, thank you man
Everybody join the jam

So leave your worries and your cares behind
'Cause on this journey we don't have the time
Let your hair down, and enjoy the ride
Now get your ticket from the lady in green
You better hurry, we're about to leave
Fun for all, and all for fun

(Come on ride the train)
All aboard the party train
Hurry up and don't be late
Doo wop, don't you stop
Take this mother to the top
Going down the groove line
You came just in time
Wham, bam, thank you man
Everybody join the jam

Yeah
Party to party
(Get your ticket)
And town to town
(Don't you miss it)
Station to station
(You can make it)
Getting on down
(If you try)

Party to party
(Get your ticket)
And town to town
(Don't you miss it)
Station to station
(You can make it)
Getting on down
(If you try)

(Come on ride the train)
All aboard the party train
